

Dear Supporter,

During the pandemic, each of us has been challenged with meeting the needs of older adults and people with disabilities in ways we could not have imagined. We were confronted with finding new and effective ways to reach our community members to deliver lifesaving services, as the need increased. Who could have imagined the commitment needed to deliver on our mission and to promote wellbeing for older adults and people with disabilities in Snohomish County? You led by example, you were the driving force to respond and break new ground to care for seniors in life and death situations. You inspired and empowered us to step up and meet the urgent needs of our vulnerable community members - thank you.

You showed remarkable dedication and passion to touch lives in immediate and urgent need. Your role modeled what great kindness and compassion look like, and you have shown your willingness to link together for the common good. Every day we were uplifted by the generosity of individuals, corporations, and community groups. Your willingness to work across purposes to make a difference is something that will stay with us.

The inspiration you provided will live on. We will continue to use these lessons to direct and inspire ourselves to think creatively about how to collaborate with our community and how to plan for change and support over the next decade.

Since 1973, Homage has delivered its mission with quality, commitment, compassion, and consistency. Our supporters, board, staff, and volunteers are a remarkable group of people who have maintained a dedication and passion to help every person we encounter. In the next ten years, we will meet the needs of older adults and people with disabilities in this county. The sixty-and-over population will double from 150,000 to 300,000. Effective, efficient service and new ways to collaborate and do business will become more important.

Because of you, we have taken steps to position this organization for opportunity and for a strong future. All of us associated with Homage are public voices and thought influencers. Together, we are generating and increasing community and public engagement to reduce the marginalization of older adults and people with disabilities. With your help, we will continue to mobilize people and resources for the well-being, quality of life, and to honor our older community members.

Sincerely,

Dr. Shelly Finn
Board President

Steve McGraw
