Homage Resource Guide Volume 36
5026 196th St SW • Lynnwood, WA 98036
425-355-1112 • info@homage.org • www.homage.org

The intent of this Resource Guide is to provide information about public and private non-profit organizations, government agencies, and businesses that provide a service to older adults and people with disabilities. Every effort is made to ensure the information is correct. However, this is an annual publication and phone numbers, addresses, websites, etc. can change.

Omission of an organization is not intentional and does not, in any way, negate the value of its contribution to the community. The inclusion of a listing or an advertisement from either an organization or a private business does not, in any way, imply endorsement. No reproduction without written permission.

‘Senior Real Estate Specialist’

Some of what I can help a Senior moving accomplish for a transition/down sizing move:
• Help with organizing their current home/condo to sell or eliminate items no longer needed/wanted.
• Interior painting and other items that may need to be repaired/replaced.
• Financial help to prepare their current home which can be paid in full from closing proceeds/equity.
  • Staging the residence once the residence is ready to be active on the market.
  • Let my enthusiasm and over 4 decades of residential real estate sales experience go to work for you for ‘top-dollar’!

Don’t Delay Important Vaccinations

Now is the best time to help keep yourself, and your loved ones, safe and healthy by making sure you are up-to-date on your vaccinations.

As you age, so does your immune system, which can put you at greater risk of complications from certain diseases. Your health care provider may recommend specific vaccines for influenza pneumonia COVID-19, shingles and tetanus diphtheria and pertussis (Tdap) that will help protect you.

Some vaccines, like the flu, have a special formula created to support the immune systems of older adults. Others (like COVID-19 and Tdap) require boosters in order to ensure that your immune system is as ready as possible to fight infections. Your doctor or pharmacist can help you find out which vaccines you need.

In addition to getting vaccinated, there are other easy ways to prevent the spread of illness. Eat a healthy diet wash your hands often and stay home if you are sick.

Make sure that you have a plan in case you get ill, including an emergency contact who can assist you in getting to and from the doctor or urgent care if needed.

Vaccines are readily available at your doctor’s office and many local pharmacies. Getting vaccinated is quick safe and free (in most cases) even if you are not insured. Check with your private insurance or Medicare plan for more info.

Flu isn’t the only illness that spreads during fall and winter. Other germs can spread easily, too, as people spend more time indoors, gather with friends and family, or travel for the holidays. It’s important to protect yourself.

To determine which vaccines are right for you, talk to your health care provider or pharmacist. For more info about COVID-19 or influenza vaccines visit [www.snohd.org/covidvaccine](http://www.snohd.org/covidvaccine) and [www.snohd.org/flu](http://www.snohd.org/flu)
