

Personal Emergency Response Systems Resource List

Phone: 425-513-1900
Toll Free: 1-800-422-2024

Personal Emergency Response Systems typically consist of a small electronic device worn as a pendant or wristband that allows an individual to call for help in any emergency. When pushed, the 24-hour monitoring center will assess the situation and can determine whether a visit from a designated family member or neighbor is needed, or if emergency services are required, and can contact them directly.
